

Deckshield – Oasis Tower – Dubai

The Project

Oasis Tower Car Park, Dubai 9,350m²

The Requirement

New build multi-storey car park. Waterproof membrane needed to protect the concrete required a prestigious multi-coloured decking system at a competitive price

The Solution

Application of elastomeric, solvent free Deckshield crack bridging system to all floor levels. Coloured finish coats used to colour code aisles and parking bays. Aesthetically pleasing anti-slip finish was produced. Proven track record for car park flooring excellence. British board of Agrément approved.
