

Mondeco - Tian An Centre - China

The Project

The new retail centre in Shanghai.

The Requirement

Architects MA Leung and Associates required a floor finish that was in keeping with the upscale image of the development and that was able to cater for the comprehensive range of colours and finishes specified in the design

The Solution

Three different Mondeco varieties, classic, Crystal and Exotic have been installed in more than 20 colour ways to create an attractive, eye catching floor finish. The product has been installed in the main lobby area as well as the central walkway on the first, second and third floors – a total area of 1900 square metres
