

### ***Stylish Mondeco Helps Achieve Minimalist Effect at Zafco Headquarters***

- Product: Mondeco • Market Sector: Corporate • Location: Jebel Ali, United Arab Emirates
- Client: Zafco • Date: 2007

At the new corporate offices of Zafco Dubai, the region's largest importer/exporter of automotive tyres, a **seamless epoxy resin terrazzo** has been installed to achieve a **dramatic minimalist effect**. Designed by AK Design of Dubai, the concept called for **simple clean lines** and minimalist architecture. Flowcrete's **Mondeco Crystal Snow** was chosen for the main entrance lobby, the mezzanine reception area, the second floor offices and kitchen. Mondeco's **no-joints, light-reflective** qualities helped achieve the design requirements with **stunning effect**. The **hard-wearing, easy to clean** Mondeco was also installed to the front entrance step and around the external water feature.
